COMPOST BIN ORDER FORM

Beginning July 1, 2020 Vermont banned food scraps from the trash. Here is a video about how and where to set up and use your backyard compost bin

<https://www.wcax.com/content/news/How-to-start-composting-ahead-of-the-Universal-Recycling-Law-569971211.html>

Keep food scraps out of the landfill, reduce your trash disposal expenses, and make your own compost!

- **SoilSaver Backyard Bins** 86 Gallon Recycled Plastic Compost Bin is made of 0.25- inch-thick structural foam, black recycled plastic. Tough and weather-resistant, the 2-foot-square top opening makes it easier to fill and mix the contents, and two bottom doors provide full access for harvesting finished compost. Each door measures 15L x 10W inches. Made of 0.25-inch-thick black recycled plastic
- **Counter top pails** have vented lids, back grip, latch closure, pop off lid for easy cleaning
